### From the President...

All of us, the Pilots and volunteers who make up Pilots for Christ ministry wish to thank God almighty for allowing us the high privilege of serving those in need. We likewise wish to publicly thank the hundreds of individuals, businesses, organizations, schools, and churches that so willingly give donations so that this ministry can continue even during these dire economic times. Your generosity is making a huge difference in the lives of these people who are suffering with various medical problems.

So, on behalf of all those we serve—especially the little ones—thank you so very much for your prayers and support!
