## 781 Successful Missions Flown

### Mission Report

Since our last report, we have flown 23 missions. Terry Chapman and Bob Eubanks flew Annie Mae Nix from Montgomery to Little Rock, AR. Please pray for her as she has battled cancer for over 10 years. Bob also flew Tyler Trembley of Fairhope to Atlanta, GA. This little 9-year-old suffers with Stage 4 Neuroblastoma. We also flew Mike Floyd and Jerrel Rigdon from Monroeville to Houston, TX for cancer treatment. Both of these men have been great examples of "men of faith" during a very difficult time in their lives. Lynn McNorton flew Beverly Barnett from Pensacola, FL to Gainesville, FL for a very urgent treatment of acute leukemia. All glory goes to God for the good weather and tailwinds that day!

Bob Eubanks flew Damon Coffman from Fairhope to Athens, TN for pancreatic cancer treatment. Little 1-year-old Rhae Busby was flown from Demopolis, AL to Arkansas for treatment of Brittle Bone Disease. Bob Eubanks also flew little Kamerian Clark from Fairhope to Raleigh, NC for specialized treatment of a bone marrow transplant. He has endured months of treatment.

Terry Chapman flew Duke Farrar from Monroeville to Houston for treatment of his cancer. After several trips for treatment, the good Lord called Duke home. He was a fellow pilot, a very active brother in Christ in his local church, a singer of praises to our Lord, and he will be greatly missed. But, I am sure the harmony in Heaven that awaits us all will be sweeter now than ever! Pastor Micah Gandy assisted as we flew Cynthia Williams from Demopolis to Greensboro, NC. She suffers from adrenal gland deficiency, and required specialized surgery.

We flew Eddie Andrews from Houston to Monroeville. He was suffering from terminal cancer, and God, in His wisdom, arranged this flight for him so he could be home with his family and friends. Shortly thereafter, Eddie departed for Heaven. We join the family in praising the only one that is "Good," the Lord God Almighty is His name! We flew Billy Engle from Birmingham, AL to Houston for cancer treatment. Please pray for this family as

they must travel this road many times in the future. Bob Eubanks flew Susan Johnson from Brewton, AL to Orlando, FL for cancer treatment.

Robert Fondren was flown from Tuscaloosa, AL to Rochester, MN due to liver failure. Sadly, he died shortly after returning home. This is a strong family of faith, so please pray God's peace upon them as they adjust to life without a husband or Dad. We flew a very long mission from Detroit, MI to Vero Beach, FL for Tania Jacobs, a quadriplegic, to receive long-term care near family. Tim Layne, the Pilots for Christ International Mission Coordinator assisted with this flight.

We had the honor and privilege of flying Mr. S.P. Hudson home to Monroeville from Houston. He suffered with a brain tumor. Fred Kelley and Chuck Cook assisted on this flight. We were all impressed that this "man of prayer" prayed more for us than we prayed for him. Sadly, shortly after returning home, he died. But he left behind an incredible testimony of God's faithfulness for all to see.

Our newest pilots, Brandon Mulhern, Eric Humphries as well as Marie Luker assisted as we flew Tim Dortch from Monroeville to Kansas. He has been battling Lyme Disease for many months. James Adcock was also flown to Houston for cancer treatment.

*Brandon Mulhern, one of our newest pilots, stands beside his Piper Cheyenne airplane.*

And, finally, after days of trying to bring Mrs. Julie Ann Elliott home to Douglas, GA, God worked it out. She is a sweet lady suffering from melanoma cancer. She, her husband, Bill, and their entire church would treasure your prayers. Will you please pray for all these people that God has allowed us to serve? For ultimately, He is the only Hope for all of us!

**Here are a few families that have recently lost loved ones. Please pray for them...**
